About \$1,455,000 has been expended on the work up to this cate.

The read is ore of great promise, as to usefulness and profit; an inspection of a map will show that it occupies an advantageous position. Lexington is situate in the centre of the most wealthy and productive portion of the Saate of Kentucky. The taxables of the county of Payette, in which it is situate, amounts to over \$15,000,000 at their low rates of valuation; tax of Burrbon county, through which the road passes, to over \$13,000,000.

This road connects Lexington with Cincinnati, to which latter pointnearly all the trade and travel of that portion of Kentucky naturally tends.

The amount of travel and transportation over this line must be very large. There is no question but the returns to the stockholders will be highly satisfactory.

The o-mpletion of this road will add greatly to the value of property near it.

At Lexington, this road will connect with the great Southern roads now in the course of senstruction to Nash-ville, Memphis, New Orleans and Charleston, with the lines running to Maysville and Louisville; at Cincinnati, with the various railway lines running north, east and west from that city.
